**Dancing with Angels** is an original fairytale for adults. Its beginnings lie in an old story from the north of England, the story of Childe Roland. Young Roland goes on a mission to save his sister. He is told to kill whoever shows him the way to the Elf Kingdom where his sister is held captive. So he does. This element of the tale served as the springboard for our own story-making

**multi story** owes its existence to the Canadian Fringe circuit.

As members of a larger UK company, we toured to Winnipeg, Saskatoon and Edmonton in 1998 and 1999 (with *Surviving Bluebeard* and *Messing With Medea*). We were so enthused by the experience that we decided to set up on our own in order to give ourselves the freedom to create the work that really matters to us and to play it where we wish. Central to our vision is our participation in the Prairie Fringes where we know there is an audience that wants to engage with us and where every year we find sustenance in a wide variety of inspiring productions of every conceivable genre.

The company has enjoyed amazing success since its foundation in 2000, having firmly established itself amongst the UK's premiere children's theatre providers as well as playing adult productions in prestigious venues throughout England. All thanks to Canada and its Fringes!
